## INFORMATION SHEET

All edible icing sheets and inks sold are all kosher. Please contact us via the email address above should you require a copy of the certificate.

Each sheet is essentially a very thin piece of flavourless icing, white in colour and affixed to a plastic backing sheet to make it possible to handle and pass through the printer. When printed, fully dry, and removed from the backing sheet the edible icing is extremely pliable and manageable without cracking or tearing.

Edible Icing Sheets are completely safe for human consumption, made from 100% EC approved ingredients.
